THE SOVEREIGN RULE OF SOUTH CAROLINA Views of Southern Laws, Life, and Hospitality

Written in Charleston, S. C., by F. C. Adams.

Written in Charleston, S. C., by F. C. Adams.

THE above work forms a beautiful 12mo volume of over 300 pages, small pica. Price—in paper, 50 cents; muslin, 75 cents. The usual discount to the Trade. Orders solicited. Copies sent by mail, prepaid, any distance under 3,000 miles, for 61 cents.

The above work is a delineation of the scenes and incidents connected with the imprisonment, in 1852 of Manuel Pereira, steward of the British brig Jan son, in the jail of Charleston, S. C.

The following notice of this work is copied from the National Era of February 17:

"The above is the title of a work now in press founded upon that infamous statute of South Carolina, by which her citizens claim a right to imprison colored seamen, of all nations, and even those cast upon their shores in distress. We have perused the book in advance of its publication, and find that it gives a life-like picture of Pereira, the vessel in which he sailed the storms she encountered, and her wrecked condition when brought into the port of Charleston, S. C.; to gether with the imprisonment of Pereira, several seamen belonging to the New England States, and two French seamen; the prison regimen, character of the Charleston police, and the mendacity of certain officials, who make the law a medium of peculation. The work is replete with incidents of Southern life and character, pointing Southerners to the things that call for correction at their own hands, with a force that cannot be mistaken. The work is written by one who has taken a prominent part in the affairs of the South, and cannot fail to interest alike the general reader, commercial man, and philanthropist."

Extract from the Preface:

"The books are intended to be books of instruction, rather than of mere amusement; and, in perusing them, the reader may feel assured that all the information which they contain, not only in respect to the countries visited, and to the customs, usages, and modes of life that are described, but also in regard to the general character of the incidents and adventures that the young travellers meet with, is in most strict accordance with fact. The main design of the narrative is thus the communication of useful knowledge; and everything which they contain, except what is strictly personal, in relation to the actors in the story, may be depended upon as exactly and scrupulously true."

PROSPECTUS OF THE PROHIBITIONIST.

ARNOLD'S, 84 STRA B, LONDON.

I HEKEBY constitute Mr. imon Willard, No. 9
Congress street, Boston, sole agent for the sale of
my Watches in the United States of America.

April 15, 1853. CHALLES FRODSHAM. 'If any State deems the retail and is April 15, 1853. CHAILES FRODEHAM.

The undersigned, having been appointed sole Agent in the United States for the sale of Charles Frodsham a Improved Timekeepers, would especially call public attention to his extensive and aluable stock of Compensated Chronometer Watches, made by Charles Frodsham, and styled his "New Series." In the Watches of the new series. Mr. Frodsham has succeeded—by a more perfect medical of compensation, a more correct adjustment in isochronism, and an entirely new and peculiar construction of the train, by which more power is obtained without increase of size—in producing timekeeper of wonderful and unrivalled accuracy. The great uncertance of the improved Watches is a perfect regularity of time, under every variety of climate, moton, and position. So perfect are the adjustments, that the most violent exercise—such as horseback riding, jumping, &c.—produces on them no sensible effect. They are therefore peculiarly adapted to railroad purposees.

The scientific French critic Mons. Borsendorf, in his review of the Great Lond a Exhibition of 1851, styles the contribution of Mr. Charles Frodsham as "bearing the stamp of peculiar merit, and as being the flower of the English schoot."

The British Government have awarded Messrs. Arnold and Charles Frodsham the sum of £3,170, for the excellence of the principle of their timekeepers.

One of Mr. Frodsham's correspondents writes as follows:

London, April 26, 1852.

ON or before the lat of January, 1854, the Executive Committee of the New York State Temperrance Society will issue the first number of a Monthly Temperance Journal, under the title of "THE PROUIDITIONIST."

"Irs Sizz.—It will be printed on a double medium sheet, making eight quarto pages, of four columns to a page; and, excluding advertisements, each number will contain an amount of reading matter equal at least to that furnished by our larger-sized daily journals, or to that of an ordinary duodecimo volume of 150 pages.

shee generally, and especially the Legislative Prohibition of the Traffic in Intoxicating Beverages, to prepare the minds of the masses for such Prohibition, by showing its expediency and Nacessity, and to secure, by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when obtained.

vigorous enforcement of Prohibitory Laws when obtained.

Its Firld.—Dealing with general principles, with arguments alike applicable to every community where the traffic exists, and with facts illustrative of these arguments and principles, the paper will be National in its spirit, in its scope, in its purpose, and, we trust, it will be National in its circulation and influence. Such is our sim and expectation. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognised policy of the Nation. It is our ambition to bear a part in this great work, and to this end The Prohibitionals is established, not as the organ of a society merely, but of a Great Revormatorny Movement.

Its Necessity.—The existing Temperance Journals have little, if any, circulation outside of the Temperance Ranks. Their price almost necessarily restricts them to the friends of the cause. The Prohibitory is designed for circulation (instead of tracts) among the indifferent and the hostile. For this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to place a copy in each family that will consent to receive it.

Its Price.—One copy for one year — \$0.50

One of Mr. Frodsham's correspondents writes as follows:

London, April 26, 1852.

Sir: I have much pleasure in giving an account of the Gold Compensation Lever Watch. No. 3,325, you have made for me, and in which I expressly stipulated that it should maintain a uniform rate of going under every variety of motios and climate. This it has done in a most remarkable manner; its rate of going for the first six months was five seconds per month, and in the next six months it changed its rate a little faster, viz: eight seconds per month, and at the end of 365 days it was found to be fast of Greenwich mean time one minute and fifteen seconds. Though I was not led by any previous promise to expect such performance, yet I believe it is only the usual character of your improved watches, which you term your "new series."

I remain, sir, yours, respectfully,

To Mr. Charles Frodsham.

The undersigned has received the following:

Boston, October 5, 1853.

Sir: I herewith give you an account of the remarkable performance of the watch I purchased of you, made by Charles Frodsham, bo. 7,014. Its total variation for 17 months, by weekly observations, was but one minute and fifty-five seconds.

Yours, respectfully,

Boston, September 3, 1853.

No. 9 Congress street, Boston. THE NEW YORK MUSICAL REVIEW

CHORAL ADVOCATE

Is the cheapest and best Musical Paper in the world. This Journal, which has heretofore been published monthly, commences its fifth year in January next, and thenceforward it will be published every two weeks—on every other Thursday; thereby giving more than twice as much matter, without any increase in price. Each number contains sixteen quarto pages, four of which are new music, consisting of glees, hymn tunes, chants, anthems, dedication and holyday pieces, and, in short, every variety of music adapted to purposes of religious worship, to public occasions, and to the home circle; all of which will be of a practical character, and such as can be sung by persons of ordinary musical attainments. In the editorial department of the Review are engaged (in addition to Mr. Cady, the former editor) gentlemen of the highest talent and ripost musical experience, among whom are George F. Root, William B. Bradbury. Thomas Hastings, and Lowell Mason; and its circle of correspondence, home and foreign, is complete. The Review will also be a regular medium for the announcement of new musical publications by all the leading publishers in this columns both in Great Britair and in the United States. Such works as "The Cax tons" and "My New Novel," both by Bulwer; "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers in this country, have to be remains and in the United Sta CHORAL ADVOCATE designed by Coffin & Brown, and engraved by Orr & Andrews:

The large number ordered in advance—more than 12,000 copies—is the best evidence of the popularity of the book. The music alone in a volume would cost over five dollars, in the usual form. Beside this, there will be an immense amount of musical news, essays, criticism, instruction, &c., all for only one dollar! Every one feeling a particle of interest in the cause of music will surely subscribe.

Dec. 8—3t PUBLISHERS' ANNOUNCEMENT:

ELEVENTH VOLUME OF THE AMERICAN AGRICULTURIST Weekly Agricultural Paper of the Country.

THE AMERICAN AGRICULTURIST, a weekly
Periodical of sixteen large quarto pages, making
an annual volume of 832 pages of nearly double the
size of those in the first ten volumes of the Agricul-

turist.

It is beautifully printed with type cast expressly for it, and on the best of clear white paper, with wide margin, so that the numbers can be easily stitched or bound together.

A copious Index is weekly added, which will be fully amplified at the end of the year, for the bound work.

fully amplified at the end of the year, for the bound work.

Comprehensive in its Character,

Each volume will contain all matter worth recording, which transpires either at home or abroad, and which can serve to instruct or interest the Farmer, the Planter, the Frait-Grower, the Gardener, and the Stock-Breeder; thus making it the most complete and useful Agricultural Publication of the day.

Correct and valuable Market Reports.

The Markets will be carefully reported, giving the actual transactions which take place from week to week, in Grain, Provisions, Cattle, &c.; thus keeping our readers constantly and reliably advised as to their interests. During the past year, the knowledge obtained from these Market Reports alone has saved our readers thousands of dollars, by informing them of the best time to sell or purchase.

Such a Paper is demanded by the Farm

obtained from these Market Reports alone has saved our readers thousands of dollars, by informing them of the best time to sell or purchase.

Such a Paper is demanded by the Farm Community.

The publishers confidently believe that the agriculturists of this country are becoming too much awake to the demands of their own calling to be longer satisfied with the slow monthly issues of a paper professedly devoted to their interests, or to trust alone to the irresponsible extracts in a "farmer's column," so popular just now in papers chiefly devoted to business, politics, or literature; and they look for the united support of all the intelligent farmers of this country in their continued effort to furnish a weekly paper of a high and reliable character, which shall be progressive, and at the same time cautious and conservative in all its teachings.

Essentially an Agricultural Paper.

The Agriculturist will not depart from its legitimate sphere to catch popular favor by lumbering up its pages, with the silly, factitious literature, and light, miscellaneous matter of the day; it has a higher aim; and a small part only of its space will be devoted to matters not immediately pertaining to the great business of Agriculture. The household as well as the out-door work of the farm will receive a due share of attention. The humbugs and nostrums affoat in the community will be tried by reliable scientific rules, and their worthlessness exposed. It is the aim of the publishers to keep this paper under the guidance of those who will make it a standard work, which shall communicate to its readers only that which is safe and reliable.

An Independent Journal.

The American Agriculturist stands upon its own merits; and the truthfulness, zeal, and ability, which it brings to the support of the interests of the farmer. It is untrammeled by any collateral business connections whatever; nor is it the organ of any clique, or the puffing machine of any man or thing.

Thoroughly independent in all points, its ample pages are studiously

a thoroughly practical farmer and agricultural chemist.

They will be assisted by Prof. Nash, who has been

for a long time one of the most successful farmers of New England, and is now Agricultural Professor of Amherst College; Rev. Wm. Clift, widely known as a pleasing and instructive writer on gardening and other departments of practical agriculture, and, in addition to these, a number of other eminent agricultural writers.

All the editors are men practically experienced in their profession, each of whom can handle the Plow as well as the Pen.

The Cheapest Paper in the country, of its char-

acter.

The American Agriculturist is supplied to regular subscribers at a cost of less than four cents a number, of sixteen large pages; and to farge clubs for less than two and a half cents. Each number will contain suggestions for the treatment of soils, manues, crops, stock, &c., which will often be worth to the reader more than the cost of the paper for a year.
